

Mrs. Ashley Porter-Collins is a graduate of Texas A&M University, where she received her B.S. in Agricultural Science and Education. As a student there, she dual majored with Biomedical Sciences, and studied many subjects including veterinary science, anatomy and physiology, oceanography, parasitology, and even agricultural mechanics. She was also an avid member of the Environmental Issues Committee, F.A.S.T. (Future Ag Science Teachers) and took a year off to intern at Disney's Animal Kingdom in Orlando, FL.

Mrs. Porter-Collins has also been employed at various animal related businesses, including veterinary hospitals, boarding/grooming facilities, and supply/feed stores. Duties included clinical restraint, administering medications, as well as educating the public on animal welfare issues. Mrs. Porter-Collins also has a wide array of agricultural knowledge in areas of animal grooming, kennel and grooming management, general biotechnology, animal behavior and rehabilitation, and veterinary sciences.
